

Company profile - 2023

ABOUT US:

- **Dr NS Labs was established on 15-July-2014.**
- **Dr NS Labs started with Ph.D. professionals with working experience around 15-20 years in different pharmaceutical industries of India & Germany.**
- **With an objective to satisfy customers in terms of solving critical parameters to deliver the innovative and advanced high quality chemical compounds.**
- **Company is Located in eco-friendly industrial park and geographically connective towards logistics.**
- **Excellent technical team to handle FTE & FFS model.**
- **New technology development in a cost effective manner.**

CORE STRENGTHS:

- **We have expertise in handling Full Time Employee Services (FTE's) and method development.**
- **Good compliance analytical tools with software.**
- **Modern lab equipment to handle sensitive chemistry.**
- **Excellent delivery track record (National and International), success rate of >90% on all projects.**
- **Best lab infrastructure with good safety & security system.**
- **Literature search engine access towards Sci-Finder & Reaxys.**
- **Maintaining IP confidentiality with high ethical fitness.**

VISION, MISSION & VALUES

Vision

We aim to be the best CRO partner for innovative companies, organizations & academies by constantly evolving and bringing innovative products in discovery segment.

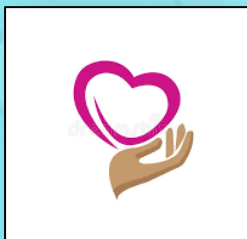

Mission

- Enhancing value to the customer.
- Delivering quality results to the customer.
- Leveraging chemistry to deliver innovative products.

Values

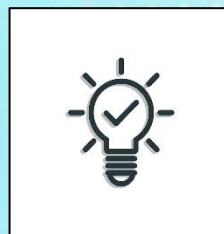

Integrity

Safety

Care

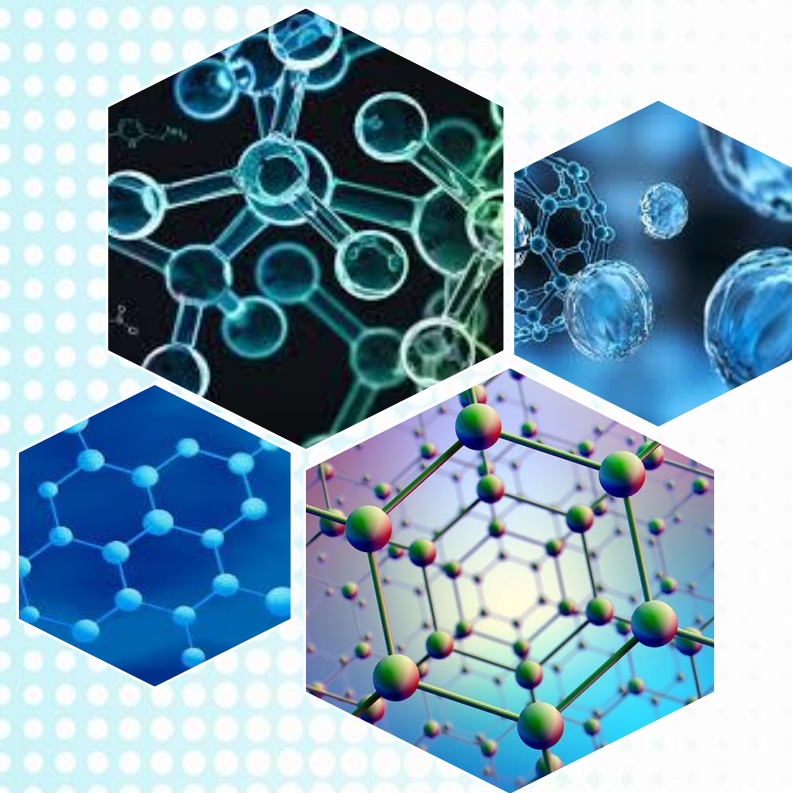

Innovation

Excellence

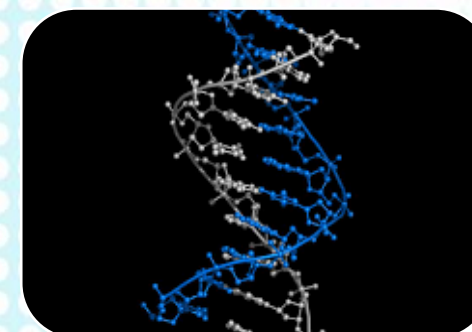

SERVICES-SYNTHETIC CHEMISTRY

- FTE & FFS model synthesis.
- Synthesis of new chemical entities (NCE), pre clinical & clinical trial molecules.
- Method development for cost optimization with environmental care.
- Design & synthesis of focused library analogues to enhance the possibility of lead generation & optimization.
- Synthesis of reference compounds or standards, metabolites & impurity markers.
- Method development & technology transfer of customer specified organic molecules.

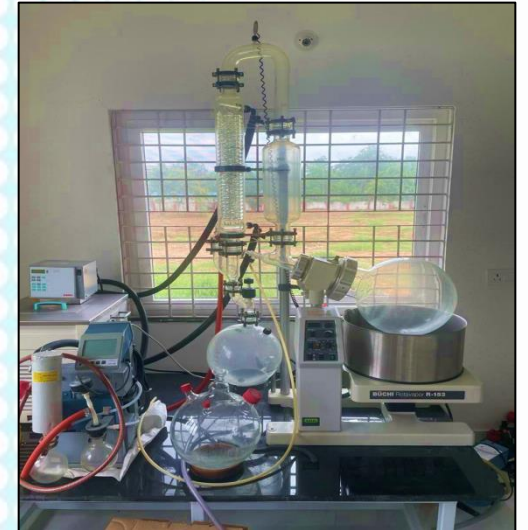

OTHER SERVICES WE OFFER

- Preparative purifications & chiral separations.
- Isolation & characterization of low range components & impurities from finished products.
- FDA compliance report making.
- Co-enzymes synthesis
- Nucleic acids
- Carbohydrates
- Peptide synthesis & purification
- High quality toxins for ADC's

OUR SYNTHETIC LABS

LIST OF KEY EQUIPMENTS

- 20 Lt. Buchi rotary evaporator.
- Microwave reactors.
- Different set of lyophilizers.
- Flash purification systems (Agilent & Biotage).
- Parallel synthesizers (Radley).
- Different size double jacketed reactors connected with huber chiller.
- 20 Nos. Heidolph rotary evaporators.
- Buchi hastelloy pressure reactors 2 Lt., 3 Lt. & other steel pressure reactors 25ml to 2 Lts.
- Multiple blocks for combinatorial chemistry.
- Vacuubrand high vacuum distillation units.
- Sartorius filtration units.

OUR ANALYTICAL LABS

LIST OF KEY ANALYTICAL EQUIPMENTS

- UPLC-MS with 2.0 PPB sensitivity.
- Waters MS based auto purification systems - 2 Nos.
- Waters LCMS single quad & triple quad - 2 Nos.
- Waters UPLC acquity system (quarternery)
- Waters preparative purification system with 2555 pump & sample manager.
- Waters alliance HPLC.
- Moisture content test analyzer & potentiometer (mattler & metrohm)
